- Exceptional communicator
- Complex problem solver
- Agile learning

---

## Experience

### **Application Engineer** **Sterman Masser Inc.**

**Sept 2016 – March 2017**  
**Sacramento, PA**

- Working directly with the CIO/CTO to manage and create new applications as well as reports.
- Complete detailed development tasks to turn manual processes into applications that remove the need to do tasks manually.
- Quality assurance tests to make sure there are no errors before fully deploying a project.
- Create and edit reports to show valuable data that the report consumes.

### **Consultative Sales** **Sears**

**July 2016 – Sept 2016**  
**State College, PA**

- Worked in sales for the hardware department.
- Assisted customers in purchases ranging from small items, to larger items such as tractors and workout equipment.
- Attempted to resolve issues before going to management.

### **Web Developer** **TMM Data**

**Dec 2013 – Jan 2016**  
**Philipsburg, PA**

- Worked closely with Comcast and Adobe to understand the needs of a project.
- Created Adobe campaigns and coded the A/B tests for Comcast.
- Optimized code and checked to ensure code was working across multiple browsers and platforms.
- Maintenance for live campaigns.

---
